

WEB PAYMENTS

Phonovation understand that doing business requires an ability to accept a range of payment options from customers including payments via the web.

Phonovation can process authorisation requests in real time and ensure the cardholder has sufficient funds.

Phonovation provides state-of-the-art Internet payment solutions, allowing the automation of online sales and payment processing.

Phonovation also provide one of the most comprehensive and cost-effective solutions for merchants who are accepting payments in a call or contact centre environment.

Phonovation is Ireland's largest Automated Voice and Business SMS solutions provider. Phonovation currently process in the region of 3 million calls and text messages per month on behalf of our clients, who include UPC, RTE, Greenstar, Vodafone, Quinn Direct and a range of government departments amongst many others.

Our services include:

- **Bulk SMS**
- **24/7 Payment Solutions**
- **Charge-To-Mobile Payments**
- **Web Payments**
- **IVR and Call Handling**
- **Interactive Print & TV Services**
