

## Bulk SMS for Business

Today speed of information is king - people want answers immediately. What new products do you have? Do you provide this service? I need a solution to this problem. In most cases telephone or even email communication is just not fast enough.

### Stats speak for themselves

With SMS you can reach your clients, partners or employees instantaneously.

With over 100% of the population owning a mobile phone and 94% of all SMS messages being read, you can guarantee your message will reach its destination.

### Phonovation SMS Gateway

By incorporating the Phonovation SMS Gateway technology into your IT systems you can boost your corporate reputation and increase revenue by engaging with your stakeholders efficiently, effectively and instantaneously.

**Phonovation's SMS service is used by Ireland's biggest companies**

Phonovation's SMS gateway is used by some of Europe's biggest companies - Investec, Liberty Insurance, Vodafone and UPC - to help drive sales, improve customer communication, reduce costs and provide a better customer service.

The powerful Phonovation SMS Gateway is robust enough to handle the most demanding of SMS campaigns. With a unique capacity to send 500 SMS messages per second it can provide a 24/7 fail safe platform for your communications.
